1. WHO WE ARE & OUR MISSION

The CSU Robotics Engineering Club (REC) is an undergraduate engineering organization dedicated to bridging classroom theory with hands-on mechanical, electrical, and software design.

Our constitution mandates that membership is 100% free of student dues, ensuring equitable access to technical project experience for all enrolled CSU students. Because university allocations are strictly designated for campus-wide educational workshops, our competitive hardware builds depend entirely on industry partners and community sponsors.

2. FLAGSHIP PROJECT & ESTIMATED CAMPAIGN BUDGET (\$1,000 TARGET)

Our primary engineering initiative for the 2026–2027 season centers on designing, manufacturing, testing, and fielding a custom 1 lb Antweight combat robot.

- **Event:** RCCR Combat Robotics
- **Venue:** McWane Science Center — 200 19th St N, Birmingham, AL 35203
- **Competition Date:** April 11, 2027

Budget Item / Expense Description	Estimated Cost
Drive Systems & Powertrain (Motors, Wheels, Micro ESCs)	\$180
Structural Chassis Materials & Additive Filaments	\$120
Weapon System Assembly & Electronics	\$150
Power Systems (LiPo Batteries & Fire-Safe Charging Gear)	\$100
Arena Pit Tools & Wear-and-Tear Spare Parts	\$50
Competition Travel & Fuel Allowance (Columbus <-> Bham)	\$50
Official Team & Member Apparel (27-Member Active Roster)	\$350
TOTAL CAMPAIGN TARGET	\$1,000

**Note on Apparel: Every student engineer contributing to the build receives an official team shirt displaying our sponsor logos. These shirts serve as walking sponsor promotions across the CSU campus and during public events throughout the academic year.*

TECHNICAL & ENGINEERING FOCUS:

- Computer-Aided Design (CAD) modeling in SolidWorks and Onshape
- Additive manufacturing (high-impact TPU, Nylon, and PLA+ composite printing)
- Powertrain integration (brushless weapon systems, micro planetary drives)
- Power management (high-discharge LiPo battery systems, 2.4GHz RF control)

4. ANNUAL SPONSORSHIP TIERS (2026–2027 SEASON)

Bronze Tier (\$100 - \$150)	Silver Tier (\$250 - \$350)	Gold Tier (\$500 - \$600)
• Small sponsor logo on official team apparel • Hyperlinked logo featured in the Bronze section of the official club site • Social media recognition on our dedicated Sponsors post	• Medium sponsor logo on team apparel (sleeve or back placement) • Medium logo + hyperlink on the website's Featured Sponsor Grid • Social media recognition on our dedicated Sponsors post	• Prominent large logo on the chest or upper back of team apparel • Top-tier primary logo and header recognition on the club website • High-visibility sponsor decal applied directly to the 1 lb robot's armor • Official "Presented by [Sponsor Name]" verbal recognition during matches, pit walkthroughs, and post-competition recap media • Social media recognition on our dedicated Sponsors post

5. HOW TO PARTNER WITH US

We welcome financial contributions as well as in-kind donations (filaments, raw materials, machining services, or powertrain electronics).

To confirm your partnership, request an invoice, or arrange payment:

- Email: csu.reclub@gmail.com
- Subject: Robotics Partnership Inquiry – [Company Name]

Ready to partner? Email us at csu.reclub@gmail.com with your organization name and preferred tier to finalize sponsorship details.
